ASTRO MECH

STERILIZATION AND DEPYROGENATION TUNNEL

ABOUT

Established in the year 2000 we are one of the eminent manufacturers, suppliers and exporters of a wide range of Sterilizing & Depyrogenation Tunnel.

VISION

With the passing years, we are in the process of expanding our market base across East Europe, East / Middle Africa and the Indian Subcontinent. Our Vision is to gain many prominent clients from different sectors.

OUR PRODUCTS

Our Sterilizing & Depyrogenation Tunnel are manufactured using superior quality components, so that these deliver excellent performance and low maintenance cost.

Fabricated in compliance with Bureau of Indian Standard BIS and CGMP specification.

OUR CLIENTS

We have supplied more than 100 of our Sterilizing Tunnel to various clients across India as well as Nepal, Bangladesh, Africa & Russia

CHANGE PARTS ULTRASONIC CLEANER

Application

In Present modern world human life is been affected with plenty of health-related issues Pharma Industries have been manufacturing wide ranges of medicines for the curing the same. In such process proper Cleaning & sterilization of the wide range of the Change parts is most important to avoid the cross over contamination & ensure Product safety. For Such a crucial & critical application S Clean dose provides a hand to resolve the above issues. With Help of the S Clean brand Ultrasonic cleaning system user dose get assured for the proper cleaning process without any human interference as the system is completely Automated & Safety of the user & product to be cleaned is top most priority taken care in the process.

Above System is been used for cleaning the Change Parts used in Pharmaceutical Industries. It can be used to clean the contamination like the Oil, Wax & Other product contamination remained on the components during the changeover.

Process

- 1) Precleaning With Jet Spray
- 2) Tank Washing Spray Process
- 3) Soap Dispensing
- 4) Air Agitation Process
- 5) Tank Washing Spray Process
- 6) Ultrasonic Cleaning Process
- 7) Tank Washing Spray Process
- 8) Final Rinse with Air Agitation
- 9) Tank Washing Spray Process

FLUID SEALS (INDIA)[®]
AN ISO 9001 : 2015 CERTIFIED COMPANY

FLUID SEALS INDIA[®] AN ISO 9001 : 2015 CERTIFIED COMPANY incorporated in the year 2012, is India's leading manufacturer of Mechanical Seals & all types of Pump Spares. Our company pioneers in Designing, Manufacturing and Distribution of precision engineered Mechanical Seals and Fluid Sealing Solutions. We have set bench marks on performance, cost and service in our line of products and services offered by us. Our philosophy while attending a seal requirement has been to develop and supply spares for seals giving good performance or develop alternative design to enhance seal performance.

FLUID SEALS INDIA[®] suit standard pumps like, BHEL-WEIR, EBARA, Investa, Indian Dairy, Flowserve, Kishore, Khimline Sulzer, Kirloskar Brothers, Mather Platt, Microfinish, Raje Dia, Roto, Sam Turbo, Stork Johnson, Sulzer, Tushaco & Special Seals have been developed to suit Alfa Laval, Fristam, Pharma Lab, KSB, Grundfos, many mores.

REFURBISHMENT OF MECHANICAL SEALS

FLUID SEALS INDIA[®] have Refurbished, Re-Engineered & Indigenized the following models of multinational brands like JOHNCRANE, AESSEAL, SEALOL, SAFEMATIC, EAGLE BURGMANN, FLOWSERVE, LEAK- PROOF, CHESTERTON etc.

The company is being proficiently managed by the Managing Director, Mr. Majid Loriya. Owing to advanced manufacturing unit spread in an area of 2,240 square feet, we manufacture these seals as per the exact specifications and requirements of our clients, in an efficient manner.

These seals are widely demanded in various industries such as

30 KL Limpeted Reactor

Range Of Products

* Reactors

Sizes Range From : 0.5 KL To 40 KL
MOC : SS 304 / SS 316 GMP and Non GMP.

* Heat Exchangers

Capacity From 1 Sq Mtr To 150 Sq Mtr.
Shell and Tube Type / Floating Head Type /
Expanded & Double Tube Sheet Type.

* Storage Tanks

* Self Stiffened Storage Tank

Capacity Up to 95 KL
Available with SS Limped,
Insulation and SS Cladding ,
Polished upto 400 Grit Mirror for Food Grade.

* Twin Shaft Dispenser

* High Speed Mixers

Range from 0.5 KL TO 20 KL
Operate at 1440 RPM.

* Continuous Nitration Systems

Nitration Systems.
Operates continuously for 24 X 7.

S J Engineering Works Centrifuge Machine Mfgr

Centrifuge Range
6 Inch to 48 Inch

Model & Basket Size
10" Dia - to 48" Dia.

BEST
QUALITY

Our Centrifuge Machine Sizes Starts From : 3 Point :- 10" to 48" / 4 Point ; - 10" to 48".

- Our Models :
- 1) Manual Top Discharge
 - 2) Bag Lifting
 - 3) Full Top Body Opening
 - 4) All Models Will Available In 3 Point / 4 Point.

Note : We Also Undertake All Make Centrifuge Machine Repairing Works

Tech Sharad Engineering Pvt Ltd.

Super Critical Fluid Extraction Plant

40 Plus Immense Experience

A Superior & Economical World Class Technology for Quality Natural Products

The Current global trends show preference for products from natural sources. Also there is an increasing concern for safe, eco - friendly and pollution free manufacturing Process.

SCFE technology provides a ready and total solution to these challenges. Its superiority over the conventional technologies of extraction, especially for natural products in the food and pharmaceutical industry as well r e c o g n i z e d .

SCFE is a two step process which uses a dense gas as a solvent e.g. Carbon Di Oxide (CO₂) for extraction, above its critical Temperature (31 Degree) and critical pressure (74 bar). The feed generally ground solid is charged i n t o t h e e x t r a c t o r

Super Critical CO₂ is fed to the extractor through a high pressure pump (100 - 500 bar). The extract laden CO₂ is sent to a Separator (60 - 120 bar) via pressure reduction valve. At reduced temperature and pressure conditions, the extract precipitates out in the separator. The Extract free CO₂ stream , leaving the separator is then recycled to the extractor.

Commercial Applications :

- * Extraction of Natural Products such as Oils and Oleoresins , Flavours , Fragrances , Colour , Presevatives , Pesticides & Herbal Medicines.
- * De - Caffeination of Tea / Coffe.
- * Production of Micro and Mono Particles CO₂ as a Solvent.
- * Generally refgarded as safe (GRAS) for food products.
- * Inexpensive.
- * Easily Available.
- * Non toxic , Non flammable and Inert to most Materials

Advantages of SCFE

- * Extract with delicacy and freshness Close to natural.
- * High potency of active components.
- * Longer Shelf life of extract.
- * No residual solvent.
- * Simultaneous fraction of extracts

Commercial Status :

- * World's 1st State of the art Super Critical Textiles Dyeing Plant Supplied to SASMIRA,Worli.
- * Lab Scale SCFE plant supplied to IIT Bombay

High Pressure Autoclave

40 Plus Immense Experience In
Field Of High Pressure Autoclave

Sizes : Capacity Range From 50 ml to 1000 Litres
MOC : SS 316 / SS 316L / SS 304 / HASTELLOY C:
MONEL, INCONEL, NICKEL, TITANIUM, TANTALUM.
Design : Pressure Range : Pressure Vessel are
designed for a range of 50 Bar to 300 Bar'

Temperature Range : Maximum Temperature
Range : upto 700 Degree Celsius.
Mechanism Driven with Zero Leakage Magnetic Stirrer
drive Completely assembled
set up consisting of control panel (FLP / Non FLP) Which
Indicates RPM Power ON/OFF.
