30 KL Limpeted Reactor

## Range Of Products

### \* Reactors

Sizes Range From : 0.5 KL To 40 KL  
MOC : SS 304 / SS 316 GMP and Non GMP.

### \* Heat Exchangers

Capacity From 1 Sq Mtr To 150 Sq Mtr.  
Shell and Tube Type / Floating Head Type /  
Expanded & Double Tube Sheet Type.

### \* Storage Tanks

#### \* Self Stiffened Storage Tank

Capacity Upto 95 KL  
Available with SS Limped,  
Insulation and SS Cladding ,  
Polished upto 400 Grit Mirror for Food Grade.

### \* Twin Shaft Dispenser

#### \* High Speed Mixers

Range from 0.5 KL TO 20 KL  
Operate at 1440 RPM.

### \* Continuous Nitration Systems

Nitration Systems.  
Operates continuously for 24 X 7.

10 KL

## Welcome To The Global Pharma Equipments

Incorporated in the year 2009 “The Global Pharma Equipments”, has achieved many milestones in manufacturing, exporting and supplying commendable gamut of Pharmaceutical Equipments and Machinery.

We also provide Fabrication Services. Today, The Global Pharma Equipments has carved its unique place in the industry and it has loyal sets of customers spread across the nation.

We believe in constantly innovating and re-inventing our business process and this has helped us achieve perfection in product quality and widen the range of Equipments and Machinery.

We cater to any kind of machinery requirements of the pharmaceutical industry. We promise to travel that extra-mile to meet challenging customer demands. Based in Thane (Maharashtra), India,

since inception, ours is a Sole Proprietorship (Individual) firm. With the state-of-the-art manufacturing infrastructure in place, the company is well-equipped to handle any kind of tight production schedule. We are capable of manufacturing the entire range of machinery and Clean Room Equipments at our factory premises itself.” To be a growth driven company, this is ranked

Unit No. 005, JRT Industrial Estate, Building No.1, Chinchpada, Vasai East,

# Extractor

## Salient Features :

- \* Construction to Suit cGMP norms.
- \* Totally Enclosed untouched process.
- \* Manufactured out of laboratory tested & certified quality stainless Steel.
- \* Modular construction to ease of installation & Operation.
- \* Heating options are available as steam , thermic oil , hot water etc.
- \* Vacuum transfer system is available.
- \* PLC Operated fully automatic system available.
- \* Bottom discharge.
- \* Positive locking system at bottom discharge.
- \* WIP washing in place pressurized rotation water jet spray ball.
- \* Digital process timer.
- \* Digital temperature controller.
- \* The Machine is user friendly & easy to operate.
- \* Occupying minimum space.
- \* Filter screen at bottom discharge backup with perforated plate.
- \* The manhole is convenient for cleaning the interior while changeover of the product.
- \* Provided with level switch.

# Spherical Vacuum Concentrator

## Salient Features :

- > cgm construction.
- > Totally enclosed untouched process.
- > Manufactured out of laboratory tested & certified quality stainless steel.
- > Heating options are available as steam, thermic oil ,hot water etc.
- > PLC operated fully automatic system available.
- > WIP washing in place pressurized rotating water jet spray ball.
- > Digital process timer.
- > Digital temperature Controller.
- > The machine is user friendly & easy to operate.
- > Occupying minimum space.
- > Scraper stirrer can be added (optional) which can effectively increase the ratio of concentration & greatly increase the evaporation capacity.
- > The manhole is convenient for cleaning the interior while changeover of the product.
- > Provided with oil separator.

**Spherical concentrators are suitable for Ayurvedic, Pharmaceutical, Dairy , Chemicals , Biological & other industries on the liquid concentration & recovery of organic solvents & other process.**

## Super Critical Fluid Extraction Plant

40 Plus Immense Experience

**A Superior & Economical World Class Technology for Quality Natural Products**

The Current global trends show preference for products from natural sources. Also there is an increasing concern for safe, eco - friendly and pollution free manufacturing Process.

SCFE technology provides a ready and total solution to these challenges. Its superiority over the conventional technologies of extraction, especially for natural products in the food and pharmaceutical industry as well r e c o g n i z e d .

SCFE is a two step process which uses a dense gas as a solvent e.g. Carbon Di Oxide (CO<sub>2</sub>) for extraction, above its critical Temperature (31 Degree) and critical pressure (74 bar). The feed generally ground solid is charged i n t o t h e e x t r a c t o r

Super Critical CO<sub>2</sub> is fed to the extractor through a high pressure pump ( 100 - 500 bar). The extract laden CO<sub>2</sub> is sent to a Separator (60 - 120 bar) via pressure reduction valve. At reduced temperature and pressure conditions, the extract precipitates out in the separator. The Extract free CO<sub>2</sub> stream , leaving the separator is then recycled to the extractor.

### Commercial Applications :

- \* Extraction of Natural Products such as Oils and Oleoresins , Flavours , Fragrances , Colour , Preservatives , Pesticides & Herbal Medicines.
- \* De - Caffeination of Tea / Coffe.
- \* Production of Micro and Mono Particles CO<sub>2</sub> as a Solvent.
- \* Generally regraded as safe (GRAS) for food products.
- \* Inexpensive.
- \* Easily Available.
- \* Non toxic , Non flammable and Inert to most Materials

### Advantages of SCFE

- \* Extract with delicacy and freshness Close to natural.
- \* High potency of active components.
- \* Longer Shelf life of extract.
- \* No residual solvent.
- \* Simultaneous fraction of extracts

### Commercial Status :

- \* World's 1st State of the art Super Critical Textiles Dyeing Plant Supplied to SASMIRA,Worli.
- \* Lab Scale SCFE plant supplied to IIT Bombay

**FLUID SEALS (INDIA)<sup>®</sup>**  
AN ISO 9001 : 2015 CERTIFIED COMPANY

FLUID SEALS INDIA<sup>®</sup> AN ISO 9001 : 2015 CERTIFIED COMPANY incorporated in the year 2012, is India's leading manufacturer of Mechanical Seals & all types of Pump Spares. Our company pioneers in Designing, Manufacturing and Distribution of precision engineered Mechanical Seals and Fluid Sealing Solutions. We have set bench marks on performance, cost and service in our line of products and services offered by us. Our philosophy while attending a seal requirement has been to develop and supply spares for seals giving good performance or develop alternative design to enhance seal performance.

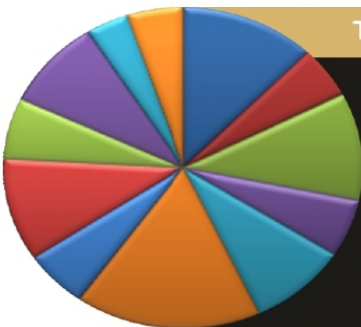

FLUID SEALS INDIA<sup>®</sup> suit standard pumps like, BHEL-WEIR, EBARA, Investa, Indian Dairy, Flowserve, Kishore, Khimline Sulzer, Kirloskar Brothers, Mather Platt, Microfinish, Raje Dia, Roto, Sam Turbo, Stork Johnson, Sulzer, Tushaco & Special Seals have been developed to suit Alfa Laval, Fristam, Pharma Lab, KSB, Grundfos, many mores.

## REFURBISHMENT OF MECHANICAL SEALS

FLUID SEALS INDIA<sup>®</sup> have Refurbished, Re-Engineered & Indigenized the following models of multinational brands like JOHNCRANE, AESSEAL, SEALOL, SAFEMATIC, EAGLE BURGMANN, FLOWSERVE, LEAK- PROOF, CHESTERTON etc.

The company is being proficiently managed by the Managing Director, Mr. Majid Loriya. Owing to advanced manufacturing unit spread in an area of 2,240 square feet, we manufacture these seals as per the exact specifications and requirements of our clients, in an efficient manner.

These seals are widely demanded in various industries such as
